

Construction Notice

Carnation Dr.

In coordination with the White City Metro Township and Municipal Service District sidewalk project, WCWID will begin construction to update and replace the existing water main and service lines from Peony Wy to the canal crossing. We will be installing new 8" ductile iron pipe to increase fire flows in the area. Along with the new main we will be replacing the remaining galvanized steel lines with copper from the new main to the meter and relocating meters with existing copper lines to remove them from the planned sidewalk. ****PLEASE NOTE WE WILL BE INSTALLING METER SETTERS WITH CHECK VALVES ON THEM, SEE REVERSE SIDE FOR INFORMATION****. The construction period is anticipated to begin late February to early March 2020 depending on the weather and will take between 4-6 weeks from start to completion. We will do our best to inform residents of any water outages or blocked driveway access but know the unexpected can occur and that we will try to keep the inconveniences to a minimum.

We appreciate your patience and understanding while we do the construction. If you have any questions or need further information, please call the office at 801-571-3991.
